# **SALE INFORMATION**

#### **STARTING TIME: 2.00 pm**

#### **VENUE:**

This Bull Sale will be held at Banquet, 184 Steeles Lane, Mortlake, Victoria.

#### **INSPECTION:**

We encourage buyers to inspect the bulls prior to Sale Day. It allows us to assist you select the sire best suited to your needs. Phone us on 0419 884 839 to make an appointment.

Lots catalogued are available for prior Sale Day inspection at our Bull Walk Day from 1.00pm on Thursday 20th February.

Sale day inspection from 11.00am.

#### **CATERING:**

Light lunch will be available and refreshments after the Sale.

#### **FREE DELIVERY:**

Banquet offers free delivery to the buyer's nearest town on route to Adelaide, SA and Emerald, QLD and to the property within Vic.

#### **BULL TESTING:**

All bulls have passed a comprehensive fertility test conducted by Dr. Craig Wood and Dr. Libby Summerell of Terang Mortlake Veterinary Clinic including – examination for structural soundness, examination of reproductive organs, measurement of scrotal circumference. They were also checked for semen motility and morphology.

#### **Semen Motility**

Sperm cells need to be motile. At about 60um long, they've a way to travel to get the job done. Following collection of a semen sample, a drop is placed on a microscope slide and examined, 'crush side', to assess the percentage of sperm cells moving forward.

#### **Semen Morphology**

Morphology is the anatomy or structure of the sperm. It cannot be tested 'crush side' requiring a large specialised laboratory microscope to examine a preserved semen sample, assessing the % normal and % abnormal sperm cells. It can pick up defects in the sperm that 'crush side' testing cannot. The most serious of these defects can see the sperm start to fertilise an egg but fail to result in a viable embryo and the female will fail to fall in calf. Note that Semen Morphology can differ in subsequent samples from the same bull. Stress can cause this and putting a bull through a sale will generally cause some stress.

#### **SEMEN RETAINED:**

Banquet will retain semen from some of the bulls in this Sale for within herd use only. These bulls will be nominated on the supplementary sheet.

#### THE BANQUET BULL GUARANTEE:

All bulls are backed by a 3 YEAR GUARANTEE. In the event of a bull proven to be incapable of natural service the vendor can either offer a suitable replacement if available or issue a credit for future sales. The credit is a pro-rata value of the bull minus the salvage value. The guarantee can only apply if the bulls' incapacity is not caused by injury or disease since taking delivery. Any claim must be accompanied by a relevant veterinary certificate. The vendor retains the right to obtain independent veterinary confirmation of any claim.

It is important to understand that normal care must be taken, and good husbandry practices observed, as we cannot replace a bull that is injured or dies for any reason. As such, we recommend you insure animals against injury. A representative of an insurance service organisation will be available on Sale Day.

# **SALE INFORMATION**

#### **NATIONAL CATTLE HEALTH STATEMENT:**

Banquet has its own Biosecurity Plan prepared in conjunction with our local vet Dr Craig Wood. We are a J-BAS 6 herd.

See page 87 for our National Cattle Health Declaration.

#### **STOCK HEALTH:**

All bulls have been ear notched tested negative for Pestivirus. They have also been vaccinated with Pestiguard vaccine (pestivirus), Vibriovax (vibriosis), 7 in 1 Vaccine (leptospirosis) and drenched with Dectomax. Any animals purchased for Queensland will be vaccinated against 3 day sickness and receive the 3 germ tick vaccine upon request.

#### **RECESSIVE GENETIC CONDITIONS** (see page 80)

All animals in this Sale are free of AM, NH, CA and DD by parentage, or have been tested free.

NO CARRIER ANIMALS ARE BEING OFFERED FOR SALE

#### **REBATE TO OUTSIDE AGENTS:**

Outside agents accompanying a purchaser to the Sale are entitled to a 5% rebate. Please refer to page 4 for further detail.

#### **AFTER SALE SERVICE:**

Banquet is renowned for excellence in providing after Sales service.

If in doubt, speak with us or with any one of our many satisfied clients.

#### **FURTHER INFORMATION:**

**Contact Stephen or Noeleen Branson** by phoning

by phoning or Email

0419 884 839 or 0437 029 992 banquetangus@westvic.com.au

# OUTSIDE AGENT COMMISSION REBATES

5% rebate will be paid to all agents that attend and who purchase with or on behalf of their clients and settle within seven days of sale date.

2% rebate will be paid to all agents introducing clients that purchase but not accompanied by them to the sale.

A written introduction must be received by the vendor 48 hours prior to the sale and accounts must be settled within 7 days of the sale date.

# SIGHT UNSEEN PURCHASING PROGRAM

100% satisfaction guarantee. Available to buyers who cannot attend the Sale.

For those purchasers who have discussed their requirements with us prior to the Sale we offer a 100% money back guarantee if the purchaser is not completely satisfied with their purchase. We must be notified within seven days of taking delivery. However the purchaser will be responsible for return transport costs.

# WELCOME

## Welcome to our 2025 Autumn Bull Sale Catalogue

Many times I use this forum to vent my disgust on some issue of the time. This year I am trying to refrain from enhancing my reputation of being "Grumpa".

But if you want that sort of conversation lets talk about the performance of those who are paid by our taxes. Recently Gordon witnessed two road workers installing a new 'give way' sign. At smoko they had the post up and one was asleep in the truck. By lunch time they had only put the brackets on the post and bolted on the sign. Gordon was adding up how much of his tax went into one give way sign.

Sadly the pride of doing a good job in a timely manner has long been lost from Australian culture. How long can Australia maintain our lifestyle now we are the much celebrated "Lazy Country".

..... Bugger! grizzling again.

On a positive note lets celebrate small businesses. They are the great strength of Australia. The milk bars, small shops and family farms that work hard and take risks. They pay interest and taxes, create employment and service the needs of the community. Join us on the 27th of February and raise a toast to the inspiration that is small business.

Please care for each other and take time to celebrate our way of life.

Best Wishes
The Branson Family

6

# **SADLY MISSED**

## **VALE - Charles Kimpton of Toora West**

During life's journey we have people that touch our lives. Some inspire, comfort or give leadership and support. During 2024 one who inspired left this world.

Charles was one of those larger than life figures. Strong, determined, generous and caring. A master stockman. He was a successful breeder of horses, dogs and cattle. Most of you would be aware of the Toora West Angus cattle. Charles and Cass produced a very consistent herd of larger framed, long bodied and very heavy cattle, without sacrificing fertility, maternal traits or do ability. With his powers of observation and careful thought Charles chose matings which resulted in excellent progeny.

His greatest selection was of his life long mate, Cass.

Thank you for the inspiration and encouragement you extended to our family.

**Rest in Peace our Friend** 

# **HAPPY RETIREMENT**

#### **ALLAN HICKEY**

In December 2024 we attended a wonderful celebration of Allan's career.

Allan has been Elders representative at all our Victorian Auctions starting in Autumn 2000 and now tallying 36 sales.

It has been a pleasure for our family to work with Allan and we thank him for all his support over 26 years.

He will probably still be 'in Pink' this year.

He tells me the shirts are almost new
and he "doesn't want to waste them!"

Our Family wishes you a happy retirement Allan.

# 85 COMMERCIAL ANGUS HEIFERS RISING TWO YEARS - PTIC

# **Sourced from leading Banquet Clients:**

Birriwindi, Dirriwang, Jindabelluc, Jingella, Mt Kincaid and Ryan Pastoral.

Joined to Banquet calving ease sires from 13th June 2024

Due to commence calving mid-March for 6 weeks.

Drenched and vaccinated with

Dectomax, Multimin, AD+E, 7 in 1 and Pestiguard.

Heifers JBAS 6

To be offered in Lots of 8 to 12 prior to the Bull Sale and on Auctions Plus.

**DAM: ANVIL EMBLYNETTE P177** 

Anvil Emblynette E199

Statesman S154, was retained and used at 15

months of age over first calvers. He was selected for his powerful head, strong spine, wide top, big loin, tight sheath, huge hindquarter, lovely docility and a great pedigree. This is his first offering of sons. He has stamped all his progeny with all these great traits. S154 is breeding very consistent just like his sire, Nuttella N462. We rate N462 as the best sire we have used. Now his two main sons S005 and S154 are close to his status. Dam of S154, Emblynette P177, was purchased as a calf at foot from the Anvil dispersal. P177's sons have sold to \$40,000 twice and averaging \$33,500.

10 sons will be offered in this Sale.

Privilege P357, was a star of our Autumn 2020 Sale for his extreme power, grunt, bone, weight and docility. He topped the Sale at \$27,000 to Toora West. Again he is out of a special Banquet cow. Yendi K224's first son was also "Top of the drop" but was lost with injury. Then she produced Nuttella N462, a full brother to P357, that we class as the best sire we have used. Yendi D351, dam of K224, is also an outstanding breeder. D351 sold in our Belles of Banquet Sale in 2015 to Fernleigh Angus where she was a prized donor. This is the first offering of Privilege sons. 3 sons will be offered in this Sale.

Forres Wilcoola D107

It is the consistency of the progeny of Nuttella N462 that has us so excited. Bulls that produce consistent lines of progeny are so much more valuable. N462 consistently improves so many traits. He adds thickness, depth and do ability to his progeny. He also improves structure and temperament. We rate Nuttella as the best sire we have used at Banquet. N462 sons achieved top prices at our Autumn 2022 Sale at \$62,000 and second top price of \$60,000. Our Spring 2022 Sale a son topped at \$65,000. Our Spring 2023 Sale a son topped at \$42,000 to Londavra Angus, Tas. Sons were also a feature at our Autumn 2024 Sale when 20 sons were sold and sold sold to \$40,000 to Lunar Ultrablacks, QLD. Nuttella's daughters are also very attractive for their thickness, softness and do ability.

Sensation S005 was the star of our Spring 2022 Sale. He made a new record when he sold for

\$65,000 to Mountain Valley Angus. He was admired for his magnificent head and jaw, huge top, muscularity and width. Then to add he is sired by the super sire Nuttella N462. S005 shows everything we love about our Nuttella progeny. Dam of S005, Quiet Y091, lived until she was nearly 18 years old and was still super sound until the day she died. Y091 was a sensational breeder with 8 daughters already making it into the donor team. Another son topped our Autumn 2023 Sale at \$55,000. We have retained semen from 7 sons. S005's docility EBV of +68 needs to be admired. S005 and his three flush brothers are the highest for docility in the Angus breed. 7 sons will be offered in this Sale.

Wow, Wow, Wow, what an awesome bull to start this Sale.

Uplifted U008 has the combination of Power, Performance, Pedigree and Docility.

U008 has a powerful head, jaw and muzzle. Strong spine, wide top, long body and a sleek skin. He is also thick, muscular and very quiet. U008 is ranked the 5th highest Angus male for docility EBV.

Followers of the Banquet program will be well aware of the influence of Nuttella N462. He is an amazing sire, in fact the best sire we have used at Banquet.

His sons and daughters have been the standouts since his first sons sold for \$62,000 and \$60,000 in our Autumn 2022 Sale. We have retained semen from 16 Nuttella sons to date.

Dam of U008, Quiet H492, was a smooth fronted, long bodied, clean skinned, and maternal cow. She has produced many top progeny. Including stud sires, Placid P009, who sold for \$22,000 in our Autumn 2020 Sale to Fernleigh Angus, Sufficient S231, who sold for \$19,000 in our Autumn 2023 Sale and a flush brother to U008, Uplift U005, who sold for \$22,000 in our Spring 2024 Sale to Londavra Angus. Her sons are averaging \$20,000. Four daughters of H492 have already joined our E.T programs. If you want a bull to stamp your herd, U008 should be on your list. He was used on stud cows in Spring 2024 and also in E.T programs. Semen for in herd use has already been collected. Semen retained.

Offering Uplifted U008 with 100% possession and semen interest. However, we are keen to have access for natural service. Possession and semen marketing would be shared between the purchaser and Banquet. This needs to be arranged with Noeleen on 0437 029 992 or Stephen on 0419 884 839 prior to the Sale.

U167 is a real Unit. He has a powerful head, smooth front, strong spine and a sleek skin with length, depth, capacity, bone and grunt. It is no surprise that U167 is another son of 'super sire' Nuttella N462. U167 was born out of normal calving period as his dam was in our E.T program. Dam, Kite K066 has had four sons make our sales selling for \$22,000, \$17,000, \$15,000 and \$13,000.

Undertake U288, is the second son of our \$65,000 sale topper, Sensation S005. For more notes on Sensation S005, refer to his first son at Lot 3. S005 stamps his progeny with a powerful head and jaw, wide top and big butt. They also offer a lot of grunt, power and muscularity. U288 is a great example of these great traits. Dam of U288, Mittagong L23, has 5 sons in this Sale. One of her sons, Top Deck T020, topped our Spring 2023 Sale at \$42,000 to Londavra Angus. Half brother to Lots 21, 22, 64 and 71.

U194 will add length, width, bone and power into his progeny also with a powerful head and wide top. His sire, Speciality S323, has produced all those attributes into his progeny. S323 sold in our February 2023 Sale for \$19,000. His flush brother Specialist S353 topped our February 2023 Sale at \$55,000. S323 was used in Al over some heifers to add muscularity, thickness, softness and a powerful head. We are thrilled with the results and are now using him in E.T.

His sire, Sunrise S236, was also selected to use over heifers, for his length, thickness and magnificent smooth shoulder. Dam of S236, Irene P293, had already produced a stud sire, Rabble R178. U239 is very strong topped, muscular, thick, wide and long. Granddam of U239, Quiet Q142, has been a donor. Her first two sons sold in our Autumn 2024 Sale for \$18,000 and \$14,000. Great granddam of U239, Quiet H492, has been another fantastic donor. Her sons have sold to \$22,000 twice and averaging \$20,000. Semen retained. Should be suitable for joining maiden heifers.

Understandabull U348, is strong headed, broad muzzled, deep, wide topped and big barrelled. He will also add volume and grunt to his progeny with an expressive jump muscle and loin. This is why his sire Sensation S005, attracted a lot of attention before selling for \$65,000 to Mountain Valley Angus. His dam, Lucky Q262, is a thick, muscular and maternal female. Her first son sold last year for \$14,000. Q262's only half brother sold for \$24,000 in our Autumn 2022 Sale. A half sister to Q262, Lucky T440, has already joined our E.T program this year. Also note that U348 was born and raised as a twin. Twin brother Lot 98.

Dam of U498, Lowan H126, only had four sons to select from and they came in one after the other, they are also by three different Banquet sires. H126, was purchased for the record price of \$52,000. Her first son sold for \$17,000 in our Autumn 2021 Sale. U498 is very similar to his sire Sensation S005, who topped our Spring 2022 Sale at \$65,000 to Mountain Valley Angus. U498 is silky skinned, long, muscular, deep and big barrelled. Half brother to Lots 73, 74 and 75.

A nice bull with a great pedigree. Unseen U231 has been used over first calving females this Spring, he was working until mid December. He has a powerful head with a lot of bone, grunt and muscle. His sire, Nuttella N462, has produced several great sons and daughters. Dam of U231, Jestress D901, was purchased for \$15,000 from Premier's dispersal. A daughter and a granddaughter are in our E.T team.

A grandson was second top price at \$42,000 in our Autumn 2020 Sale. Semen

U066 has been used on stud heifers in the Autumn and Spring of 2024. Upgrade is a very fitting name for U066 when you admire his bone, grunt, muscularity and strong spine. His sire, Rocket R160, was sold for \$40,000 to Callandoon Angus in our Autumn 2022 Sale. R160's first sons featured at the start of our Spring 2024 Sale and sold to \$20,000. Dam of U066, Quiet P639, is a very sound, maternal and functional young female that breeds very well. As a result she has joined our E.T program this year. **Should be suitable for joining maiden heifers.**

Utensil U454, starts the run of young 'heifer bulls'. He is smooth shouldered, strong spined, wide topped, sleek skinned, long, thick and very muscular. He is also soft, easy doing and very correct with style and presence. His dam, Quiet R311, is thick, soft, easy doing, correct and very maternal. She joined our E.T program last Spring. Five of her sisters have also been in our E.T programs. U454 is the first son to be offered by new sire, XLGun S90. S90 was purchased from XL's Spring 2022 Sale. We admired him and his brothers for there extreme muscle pattern, softness and doing ability. **Should be suitable for joining maiden heifers.**

Understanding U349, is powerful headed, broad muzzled, smooth fronted, wide topped and big barrelled, with a real butterfly muscle pattern. He will also add volume to his progeny with an expressive jump muscle and loin. This is why his sire Sensation S005, attracted a lot of attention before selling for \$65,000 to Mountain Valley Angus. Dam of U349, Lucky Q262, is a thick, muscular and maternal female. Her first son sold last year for \$14,000. Q262's only half brother sold for \$24,000 in our Autumn 2022 Sale. A half sister to Q262, Lucky T440, has already joined our E.T program this year. Also note that U349 was born and raised as a twin. Twin brother to Lot 63. Should be suitable for joining maiden heifers.

### **BRINGING A NEW BULL HOME**

Buying a bull is an investment. This investment should contribute to the genetics and sale income of your herd for many years. If you are to get the most from your new bull, it pays to look after him well, especially in the first season of use. This report discusses management strategies to maximise the productive life of your bulls.

### Arrival:

New bull buyers are often concerned about the apparent bad temperament of a bull that seemed quiet enough when purchased. Bulls can become upset and excited in the sale and delivery process. They are subjected to strange yards, different noises, loss of their mates, different people, different handling methods, trucking, unloading, new paddocks and different water and feed. This can upset animals which are normally very quiet.

When the bull arrives home, unload him at the yards into a group of cows or steers. Never jump the bull from the back of a truck into a paddock. Bulls from different origins should be put into separate yards with other cattle, steers or cows, for company.

Provide hay and water, then leave the bull alone until the next day, before giving routine health treatments.

### **Mating New Bulls:**

Newly purchased young bulls should not be multiple joined with older herd bulls. They will not be allowed to work much and in keeping them away from the cows, the older, dominant bull will knock them around.

Use new bulls in either single sire groups or with other young bulls their own age. If a number of young bulls are to be used together, run them together for a few weeks before joining starts. They sort out their pecking order quickly and have fewer problems later.

The Australian Association of Cattle Veterinarians (AACV) defines a normal, fertile bull as "expected to get 90% of 50 normal, cycling, disease free females pregnant within 9 weeks, and 60% of these should become pregnant in the first three weeks of joining". This expectation would apply to 2 year old bulls, but not to younger bulls.

### **During Mating:**

Check bulls at least twice each week. Watch them work if possible and pay particular attention to any sign of abnormal serving problems like "corkscrew penis" or too many cows returning to heat.

Have a spare bull or bulls available to replace any that break down. If you have to replace a bull, get the bull checked by your vet. Sometimes prompt treatment for small problems can avoid culling. Vendors that provide guarantees on their bulls will usually require a veterinary certificate indicating the problem with unsatisfactory bulls.

Rotate bulls in single sire groups to make sure that any bull infertility is covered. Single sire joining works well but it has risks. The bulls must be checked regularly and carefully or the bulls rotated every one or two cycles.

### DISCLAIMER AND PRIVACY INFORMATION

### **Attention Buyer**

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

### **Parent Verification Suffixes**

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV: both parents have been verified by DNA.

SV: the sire has been verified by DNA.

DV: the dam has been verified by DNA.

#: DNA verification has not been conducted.

E: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

### **Privacy Information**

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

### BUYERS OPTION TO OPT OUT OF DISCLOSING PERSONAL INFORMATION TO ANGUS AUSTRALIA

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents	
from member	(name) do not consent to Angus
Australia using my name, address and phone number for th	e purposes of effecting a change of registration
of the animals I have mentioned above that I have purchase	ed, maintaining its database and disclosing that
information to its members on its website.	
Name:	Signature:
Date:	

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale NSW 2350.

If you have any questions or queries regarding any of the above, please contact Angus Australia on (02) 6773 4600 or email office@angusaustralia.com.au
